

Systems Technician (HVAC)

Saunders Yachtworks, Gulf Shores

We are looking for an experienced Marine Systems Field Service Technician who has experience in HVAC and/or electrical systems to troubleshoot and repair boats.

Responsibilities

- Servicing marine air conditioners ranging from direct expansion, split gas and tempered water systems.
- Servicing and maintaining refrigeration units, both air and water cooled.
- Maintaining electrical systems, water makers, plumbing, (portable water, gray and black), battery chargers, hydraulic systems, etc.

Typical brands you can expect to service and install are Dometic, Sea Recovery, Headhunter, Vacuflush, Marquipt, and Seakeeper.

Education and/or Work Experiences Requirements

- 5 years of HVAC and/or electrical experience
- Marine experience preferred
- High school diploma or GED required
- Experience working in a physically challenging environment

Qualifications

- Valid Driver's license
- Pass a background check, pre-employment physical and drug screen.

Position requires your own tools and a good multimeter. We boast a clean work environment, great work atmosphere, and an exceptional team! Salary is based on experience. Field service technicians typically work onsite, and across the Gulf Coast.

Saunders Yachtworks is an EEO Employer and does not discriminate in any of its hiring practices and operates a drug-free workplace.

Company Description

Saunders Yachtworks in Gulf Shores, Alabama is the premier full-service boatyard on the Northern Gulf Coast. Our 150-ton Travelift attracts customers from Florida to Chicago to the Texas coast. Services include all aspects of vessel refit and repair including authorized diesel engine dealerships in-house. Founded in Mobile, Alabama, in 1959, Saunders has many years of experience in marine engine service and boatyard operations. This is a great opportunity for you to join an exceptional team!
