

Driveline Mechanic - Boatyard

Saunders Yachtworks, Gulf Shores, AL

Position Description:

We are seeking an experienced marine driveline mechanic who has experience in repairing driveline components. This position requires a strong mechanical aptitude with an understanding of mechanical systems.

Responsibilities:

- Inspecting and repairing driveline components (props, struts, rudders, seals, shaft couplings, and engine alignments)
- Make fiberglass repairs
- Block boats, pressure wash, paint, rigging, and mechanical work
- Prepare boat bottoms by scraping, sanding, grinding, and cleaning
- Assist with hauling and launching vessels
- Conduct thorough assessment prior to starting a job including acknowledging the budgeted time
- Execute work orders to customer specifications
- Maintain accurate records of services performed and receipt of parts and materials acquisition/return.

We boast a clean work environment, great work atmosphere, and an exceptional team! Salary is based on experience. The ability to handle physical workload, to include lifting 50+ lbs., working in confined spaces, and extreme weather conditions. This position requires the ability to wear a respirator.

Candidates must pass a pre-employment DOT physical, drug screen, background check and have a clean driving record.
